A native Oregonian, Heidi Byrnes cut her interior design teeth in the early 1990s. By 1999, her talent landed her a position as Senior Designer with a major custom furniture company in the Central Coast of California. Eventually the familiar magnetism of Central Oregon brought Heidi and her family back to Bend.

With over 18 years of experience in the design and building industry, Heidi has developed an artful ability to identify a client's design preferences, and bring it to life in a way that combines brilliant design with functional efficiencies.

Great vision is only as good as the execution behind it. Byrnes Design Group's support group is comprised of licensed, bonded industry veterans. From installers to project managers, fabricators to builders, we work closely with our highly vetted partners to ensure that our execution is as consistent, efficient, and detailed as our visions.
