ON A PERSONAL NOTE

I am a Designer. I found my passion in life after an early career in the medical field left me unfulfilled. Now I save interiors! I am a wife and mother (my first passions)

I am an avid cyclist, golfer and exercise nut. My favorite motto “the most wasted of all days is one without laughter”. One can find humor in all situations.

I believe in giving back and moving forward, without forgetting the past and I always try to learn from my mistakes.

I love life, good wine and great friends.
