

AcriMax™

MULTI-SURFACE

AcriMax is our multi-surface, interior/exterior waterborne acrylic coating. Suitable for commercial and light industrial applications, it has excellent adhesion to a variety of substrates including properly prepared metal and masonry. AcriMax is quick drying and has early block resistance and hardness for projects where down-time needs to be kept to a minimum. From doors and windows to hand rails, cabinets and floors, AcriMax is a truly versatile product.

- **Self-priming directly to multiple surfaces**
- **Excellent early block resistance and hardness**
- **Dries quickly**
- **Excellent adhesion to slick and glossy surfaces**
- **Water clean-up**

EGGSHELL

Ideal for projects where a deep, rich look is desired yet only a minimal sheen is needed. It is designed for areas that require minimal washability and have limited use.

SATIN

This finish will minimize dirt pick-up and is washable. With the hard finish of an enamel, a satin finish can also be used on interior walls where a strong, durable moisture resistant surface is needed.

Best used when the surface is free of major imperfections. Use in applications such as interior primed smooth or rough walls, exterior or interior finish grade wood trim, or primed metal surfaces.

SEMIGLOSS

This high-sheen product is very washable and perfect for areas that are more susceptible to dirt, grease, and moisture. Ideal for projects in high traffic areas.

SPECIFICATIONS FOR ACRIMAX

	EGGSHELL	SATIN	SEMIGLOSS
VOLUME SOLIDS	39 +/- 2%	39%	30%
VISCOSITY	90-95 KU	95-100 KU	95-100 KU
WEIGHT PER GALLON	10.6 (LB)	10.6 (LB)	10.48 (LB)
GLOSS	20-25% @85°	10-35% @60°	55-65% @60°
V.O.C. (MINUS WATER)	<150 G/L	<150 G/L	125 G/L

COVERAGE: Approximately 325 - 375 square feet per gallon @ 1.5 dry mils. Two coats recommended for even coverage. Coverage depends on porosity and profile of the surface.

DRY TIME: 30 minutes to touch and two hours to recoat @ 70°F and 50% relative humidity.
