

Acrimetal® DTM

DIRECT-TO-METAL COATING

A premium, rust-inhibitive, interior/exterior acrylic coating. Acrimetal is formulated for direct application to bare metal and metal with tight rust. Acrimetal is extremely durable, has excellent adhesion to metal and galvanized surfaces and contains rust inhibitive pigments for added protection. It is a versatile replacement for conventional solvent-borne industrial primer/finish systems.

- **Extremely durable**
- **Excellent adhesion**
- **Soap and water clean up**
- **Contains no lead or mercury**
- **VOC compliant**

VELVET/PRIMER

The velvet sheen can be used as a direct to metal primer for a variety of finishes or alone as a primer/finish system. It is ideal for projects where a deep, rich look is desired yet only a minimal amount of sheen is needed.

SATIN

This popular finish will reduce dirt pick-up and is washable. The satin sheen is ideal for projects where a deep, rich look and some sheen is desired to withstand moderate traffic.

SEMIGLOSS

This high-sheen product is very washable and perfect for areas that are more susceptible to dirt, grease, and moisture. It is ideal for projects in high traffic areas.

GLOSS

Our highest sheen available, it is highly washable and perfect for areas that are more susceptible to dirt, grease, and moisture. It is ideal for projects in high traffic areas.

SPECIFICATIONS FOR ACRIMETAL® DTM

	VELVET/PRIMER	SATIN	SEMIGLOSS	GLOSS
VOLUME SOLIDS	39%	39%	43%	44%
WEIGHT PER GALLON	11 (LB)	10.6 (LB)	10.3 (LB)	10.1 (LB)
